IWA New Developments in IT & Water Conference

The International Water Association and the organisers of WWEM, the International Water, Wastewater & Environmental Monitoring Conference, have the pleasure to announce a Call for Papers, Posters and Workshops for the 3rd IWA New Developments in IT & Water Conference which will be held in conjunction with the Water, Wastewater & Environmental Monitoring Conference in the UK this November.

The use of instrumentation, data, modelling & process control have become an essential part of the modern water industry as we look towards greater environmental pressures and having to deliver a service more and more efficiently despite the challenges of population growth, tighter consents and climate change, whilst dealing with issues that have come to the forefront more recently such as Cyber Security.

SESSION THEMES

In this 3rd edition of the New Developments in IT & Water the organising committee is particularly interested in receiving papers within the following session themes

Cyber Security Modelling & Control (Wastewater Systems)

Communications Protocols Data & Information Visualisation

Network Control Systems

Decision Support Systems

Hydroinformatics

Software as a Service & Cloud Computing

Big Data, Data handling, & Visualisation

Modelling & Control (Potable Water Systems)

Innovations in IT & Water Internet of Things

The organising committee are also open to proposals for both workshops and poster sessions. Selected papers will be peer reviewed and will potentially be published in Water Science & Technology.

CONFERENCE & VENUE

The 3rd New Developments in IT & Water will be joining with WWEM, the Water, Wastewater & Environmental Monitoring Conference & Exhibition this year at the Telford International Conference Centre from 2nd-3rd November 2016.

The marriage of the IWA and WWEM conferences makes this an essential event for all members of the water industry who are involved and interested in data, information, process automation, control, instrumentation, measurement and analysis.

Visitors will attend from across the water industry with representatives from academia, industry and the supply chain.

PAPER SELECTION AND TIMESCALES

Your outline submission and the final full paper (if you're accepted as a presenter) must be in plain English and clearly define the objectives, status, methodology, findings and significance of the investigation or study. Your submitted outline paper will be peer reviewed by international experts. Programme selections are based on the scores and comments of those reviewers. Presenter decisions will be announced in June 2016.

HOW TO SUBMIT

Abstracts should be submitted through the conference webpage www.wwem.uk.com/it2016

WHAT DO I NEED TO PAY?

Every presenter (platform, poster, workshop and panel) is required to register as a paying delegate and attend the congress. If you're presenting, you are eligible for discounted registration fees. Presenters are responsible for their own travel and accommodation expenses. Presenters who do not register before 16th September 2016 will be replaced. You do not need to be a member of IWA to present, but members receive larger discounts on registration fees and receive other membership benefits.

More info about membership www.iwa-network.org

SCIENTIFIC COMITTEE

Oliver Grievson UK

Ken Thompson USA

Eveline Volcke Belgium

Leiv Rieger Canada

Alejandro Vargas Mexico

Jing Liu Sweden

Joaquim Comas Spain

Joao Mimoso

Juan Antonio Baeza Spain

Kris Villez Switzerland

Liu Ye Australia

Magnus Arnell Sweden

INTERESTED IN BECOMING A SPONSOR?

It is understood that your aim is to be at the forefront of people's minds. You want people to know that you are a water industry leader. We offer sponsor packages at different levels and tailored opportunities on request. We make sure your organisation is given VIP treatment at the many business, technical and social functions during the congress. Your brand is also given extensive exposure through the media and at the congress, as well as to non-attending IWA members through our publications and promotions.
